- Analytics:** Quantitative Analysis, Machine Learning Models, Predictive Analytics
- Soft Skills:** Collaboration, Problem Solving, Time Management, Communication

PROJECT EXPERIENCE

UGAHacks – App Developer

Oct 2023 – Present *University of Georgia – Athens, GA*

- Developed a TikTok-style web app enabling communication between creators and fans.
- Implemented backend in Java and integrated React for UI using Spring JPA.

DevDogs – Database Developer

Jan 2024 – Present *University of Georgia – Athens, GA*

- Designed backend database logic for a UGA schedule-building application.
- Integrated Java backend models with Spring Boot & Spring JPA.

Churn Analysis Project (Personal Project)

2025

- Built a customer churn analysis dashboard using SQL, Python (Pandas), and Tableau.
- Designed relational database schema and performed data cleaning for churn dataset.
- Created interactive visualizations in Tableau to highlight churn drivers such as tenure, contract type, and monthly charges.

Weather App (Personal Project)

2024

- Built a responsive weather application using Nominatim API and Weatherbit API.
- Created UI in JavaFX to track air quality, temperature, and humidity.

WORK EXPERIENCE

IT Support Specialist – College of Agricultural & Environmental Sciences (CAES) Aug 2024 – Present *University of Georgia – Athens, GA*

- Delivered client-focused technical consulting by diagnosing and resolving issues in real time, including coordinating troubleshooting via phone and remote tools to minimize workflow disruptions.
- Collaborated with stakeholders to improve technology processes and documented recurring issues to enhance knowledge sharing and system optimization.

Meat Department Associate

Jul 2023 – Present *Costco – Marietta, GA*

- Assisted customers with inquiries and maintained sanitation standards.
- Trained new employees on safety protocols and equipment use.

LEADERSHIP EXPERIENCE

Shift Lead - Twisted Taco

May 2022 – Jul 2023

- Managed kitchen staff to maintain speed and quality during peak hours.
- Introduced new procedures reducing prep time by 15%.

Shift Lead - Mod Pizza

Sep 2021 – May 2022

- Led a team of up to 10 employees per shift ensuring smooth operations.
- Maintained compliance with safety and service standards.

PROFESSIONAL EXPERIENCE

DevDogs – Backend Database Programmer

Jan 2024 – Present

University of Georgia – Athens, GA

- Connected backend Java classes and database using Spring JPA for a UGA scheduling application.

Devs on Wall Street – Member

2024 – Present

University of Georgia – Athens, GA

- Learned financial implications in computer science through networking with professionals across tech and finance companies.

HONORS & AWARDS

- Dean's List (Spring 2024 – Present):** University of Georgia
- Eagle Scout (Nov 2021):** Leadership, project management, and community service
